Forecast for Monday 13 Dec 2021

Weather: Cloudy with outbreaks of rain or drizzle, mainly affecting the west of the National Park and possibly heavy at times. Eastern parts may be dry for some of the day, with even some bright intervals possible, but there is some uncertainty in the eastwards extent of the rain.

Chance of cloud free mountain/hill tops above 600m: 10%, becoming 40% for a time in the east.

Visibility: Areas of low cloud and fog above about 300m in the morning, lifting to 600m at times in the east. Below the cloud, rather hazy and reducing to a few km at time in rain or drizzle.
